Greetings!
This has been another exciting year at CYS as our work continues to be recognized regionally. As you will see to the right, we have expanded our reach to help young people both geographically and within the continuum of care. These endeavors rely heavily on unrestricted dollars, which allows for us to serve more young people. Once again we cannot do this effectively without the donations from the holiday campaign. We hope you find the ongoing effort of CYS inspiring and will continue to support us as we work towards changing the lives of young people, making the community a better place for all!

Within the next two weeks you will receive emails with stories from two of our participants. We hope the stability you have given them through your donations to CYS is as inspirational to you, as it is to us. A couple other ways you can help CYS this holiday is by adopting-a-family/youth in need this holiday season or by donating items from our general wish list. To adopt-a-family email our Development Director here or find our general wish list below.

On behalf of the board, the staff and all the young people we serve, we thank you for your generous support of CYS. May you have a wonderful holiday season!

In gratitude,
Scott Hanauer
CEO, Community Youth Services
